Enhance your Stay in Koh Samui with Additional Privately Guided Sightseeing

Healthy Samui Coco Life Full-Day Private Tour: Slender, graceful coconut trees are ubiquitous on Koh Samui, earning this tropical paradise its nickname as Coconut Island. Focusing on this important island resource, this full-day tour is a delightful way to experience the beauty and natural wonders of Koh Samui. The day begins with a chauffeured transfer to Ban Bangkao Sala Talay where you'll set out by bicycle for a guided exploration through the coconut farms, quiet villages and tranquil scenery that grace southern Koh Samui. Refresh with some coconut juice at a local beach bar before continuing on your bicycle to one of our favorite beachfront restaurants where coconuts are featured in many of the dishes. After lunch, an interactive hands-on experience will show you how islanders plant coconut trees and how the fruit, trunk and fronds are used in a wide variety of products. Indulge in a coconut oil foot massage before returning to your resort hotel. Approximately 10 miles of cycling with guide, bicycle and helmet included.

Touching Samui Coco Life Full-Day Private Tour: Experience the coconut, one of Koh Samui's most important natural resources, on this fascinating full-day tour. The day begins with a chauffeured transfer to the Coconut Museum where your guided tour includes a hands-on demonstration in the preparation of Kanom Kee Mun, a popular Thai sweet made with coconut milk. After lunch at a local restaurant where coconuts are a key ingredient, you'll enjoy a forest walk to visit a small temple set close to the beautiful Hin Lad Waterfall. Before returning to your resort hotel, we'll make two additional stops to learn more about coconut cultivation and to see how islanders use nearly all parts of the tree, from trunk to fruit, to produce a variety of goods including household products, decorative items, and souvenirs.
